

Would you like a \$10.00 credit on your next utility bill???

The Town of Hudson is offering a **one-time account credit** in the amount of \$5.00 for any customer who signs up for paperless billing* and/or a one-time account credit in the amount of \$5.00 for any customer who signs up for ACH autopay* for payments of utility bills.

Simply complete the form below authorizing payments via ACH direct withdrawal and/or paperless billing and you will see the credit of \$10.00 on your next monthly utility bill. You can use a checking account or savings account for the ACH direct withdrawal payments.

The completed form can be returned to us via email (kathy@hudsonwy.org), in person, or in our drop box, along with a voided check from your checking account or a voided deposit slip from your savings account. After your form has been received and processed, expect a 30-day delay for withdrawal to allow for bank processing. Once initiated, you will be able to log onto Xpressbillpay.com and see a history of bills and payments. You can also edit your banking information or dates of withdrawal. Should your banking account information change or be closed, you are responsible for providing updated information to the Town of Hudson prior to the change.

*Minimum of one-year activity required. Should you withdraw from Paperless Billing or Direct Withdrawal within one year of signing up, the full amount of your credit will be rescinded, and you will see a charge for the incentive on your next monthly bill. **Offer expires August 20, 2025.**

WHY GO PAPERLESS and ENROLL IN AUTOPAY??

Just as Secure

Paperless billing is as secure, if not more, than receiving a paper bill in the mail. Paper bills can get lost or be sent to the wrong address. Paperless billing uses online authentication and firewalls to keep your information safe.

Auto Payments

No more writing and mailing a check. No more remembering to send in your payment. Added convenience if you are away from home.

Keep Your Statements

You can keep your statements without paper bills. You can access old statements online, without the clutter. You can also save your statements as PDFs and keep them stored virtually on your device.

Eco-Friendly Benefits

More and more people are thinking about how to reduce their carbon footprint. Electronic statements are a better option for the environment. The Town of Hudson believes in taking steps to reduce our environmental impact. We want to do our part to support the environment.

Cost & Time Savings

By going paperless and using autopay, you allow the Town to save money on postage, paper, envelopes and time. With the cost of everything continuing to rise, we are trying our best to reduce costs to the Town and, in turn, costs to the residents.

Thank you!
